Balance of ORR - nothing to report

One ORR branch holds a G-2 paper dated 1946 which has proved invaluable for its basic statistics. Having a need for downgrading the material from secret to confidential, CIA asked G-2 for such permission. G-2 responded that it could not locate the document anywhere in the War Department and that, if CIA would lend them the document, they would process it for the lower classification! Does somebody need a central index?
